## Aasvoëlkrans

### Gebieds kamp

Vanoggend sit en wonder hoekom voel ek so "tense" dadelik besef ek dit is omdat daar so lanklaas gaan kamp is ! Met 'n naweek weg en tussen vriende sit darem weer die krag terug in ons pype vir die "rat race weke" wat voorlê ! Die lede van ons streek kon nie die Gebiedskamp bywoon nie agv. siekte en gesinsverpligtinge , maar volgende keer is ons weer voltallig teenwoordig!

Ek en Nita kom van 'n lieflike bosveld vakansie af "Weesgerus" te Nylstroom saam met mede gelowiges. Ons het dit vreeslik geniet saam met die oumensies. Die swem sessies soggens en laat saans was werklik verkwikkend en nie eens te praat van lekker etes waar sommige mense 'n paar kg aangesit het. Die kampterrein het 'n bitter lekker karavaan park met baie moderne ablusie blokke — mens kan hier lekker kamp jong . Terug in die beskawing ry ons toe vanaf Kempton na Aasvoëlkrans.

Ons arriveer te Aasvoëlkrans , wat 'n pragtige kampterrein . Daar is negatiewe kritiek oor die oord terrein gepubliseer, maar ons het niks daarvan ondervind nie. Minute voor die vergadering moet begin kom ons daaraan moeg van die vreeslike verkeer hierna toe maar gelukkig.

Almal die kampers (van die Goue Weste Gebied) het bymekaar gekom vir "boekevat" tyd, 'n pragtige gedeelte is gelees en treffende boodskap afgesluit met lekker samesang . Daarna kom die verteenwoordigers van die verskillende streke bymekaar onder 'n boom weg van die oggend son , elkeen om sy streek se inligting deur te

### Kamp datums vir die JAAR

Faan Meintjies ( S )	.....29 - 31	Jan
Aasvoëlkrans (G)	.....26 - 28	Febr
Presidente (Klipdraai )	.....24 - 28	Mrt
	.....	Apr
Buffelspoort ( S )	.....20 - 22	Mei
Warmbad (S)	.....15 - 19	Jun
Leeudoringstad ( S )	..... 8 - 10	Jul
Kosterdam (AJV)	.....19 - 21	Aug
Koppisol (Nasional )	.....23 - 25	Sept
Buffelspoort (Kongres)	.....14 - 16	Okt
Louico ( S - Afsluiting)	.....25 - 27	Nov
	.....	Des

### Belangrike Verjaarsdae

8	Jan	.....Rista Pretorius
16	Jan	..... Mouton Pretorius
31	Jan	..... Liesbet Broodryk
2	Mrt	..... Daan Basson
27	Mrt	..... Daan Jacobs
9	Mei	..... Eliza j v Rensburg
10	Jun	..... Faan j v Rensburg
4	Aug	... Jan Broodryk
6	Sept	.. Eurika Gouws
23	Sept	.. Laetitia Gouws
27	Sept	.. Nita van Heerden
14	Okt	.... Jaco Gouws
14	Okt	.... Johann Gouws
7	Nov	.... Herman van Heerden

### Publieke Vakansie dae

1	Jan	..... Nuwe Jaar's dag
21	Mrt	..... Menseregte dag

2	Mei	..... Publieke Vakansiedag

## Aasvoëlkrans

"Aasvoëlkrans Holiday Resort is the place to come unwind and experience the real taste of the bushveld! We are conveniently situated within 90 minutes from Pretoria and Johannesburg. Bring your caravan or pitch a tent in our caravan park which boasts electrical plug-ins, braai facilities and full ablution facilities.

If you prefer the luxury of self-catering chalets, then we have a variety of shapes and sizes available that range from small 4-bed rondavels to big 32-bed cabins. The chalets are ideally situated to give you that true bushveld feeling with the convenience of being within walking distance of the vast array of activities and facilities offered at Aasvoëlkrans.

... the real taste of the bushveld ...

### Some of the activities available

Children's Playgrounds

Pool Tables situated by the Restaurant

Paintball Field

Bicycle Rentals

Warm and Cold Swimming Pools

Putt-Putt Course "

Inligting verkry -  
[www.aasvoelkransresort.co.za/](http://www.aasvoelkransresort.co.za/)

Hier is 'n paar baie belangrike punte wat geopper is :

**NUB** – se verslag word bespreek (is voor dié al aangestuur na alle lede vir bestudering )

**Presidente kamp** – (kameelperde /helikopter ritte) daar word gevra almal dié sal ondersteun asb. Schoonspruit streek gaan weer vir Kosmos help om duisende "mond waterende" dun pannekoeke te bak of interessant voor te sit?

**Dormante lede**- voorstel dat dié op 'n admin lys oorgeplaas word tot en wanneer hulle weer beskikbaar is vir kamp. (klink so of daar in my rigting gepraat word )

**Wanneer is die volgende Gebiedskamp** en waar vir 2017. Lede moet besluit en deurgee na gebiedsvoorsitter.

Weer word die ou vraag weereens gevra : "wanneer gaan daarna gekyk word om **sukkelende streke saam te laat smelt**?" (al is dit net die bestuur)- Die kwessie moet nou dringend aandag kry op NUB vlak en verder!

**Volgende Gebiedsvergadering** – 27 April te Kosmos ? Kobus sal terugvoerring gee — waar en hoelaat !

Die vergadering word afgesluit en verdaag.

Voordat ons huis toe vertrek, stap ons deur die oord se kampterrein, restaurant en ablusieblokke en vind dié gerieflik en skoon

## Top 6 Caravan Cleaning Mistakes [This article can be seen on www.powermaxed.com/cleaning-tips.../top-6-caravan-cleaning-mistakes](http://www.powermaxed.com/cleaning-tips.../top-6-caravan-cleaning-mistakes)

“For those who own a caravan, cleaning it can be quite a chore. To make your job easier we have a caravan cleaning guide.

Here at Power Maxed as well as [caravan wash products](#) to give you an easier time. Cleaning your caravan is an important aspect of owning a caravan. Cleaning not only makes it look better but is one of the most important aspects of keeping it in good condition. As dirt, algae and other contaminants cause, rust, mould and general wear and tear which will slowly breakdown your caravan. This is why cleaning is so important to keeping your caravan working as well as protecting the value of it. But cleaning comes with its own dangers. This article will highlight these dangers and ways to avoid common mistakes people make when cleaning their caravan.

### 1) Pressure Washers

Many experienced caravan cleaners most important piece of advice they can give is to not use pressure washers. For the vast majority this is very good advice. Pressure washers are powerful cleaning tools which can make cleaning a very simple and quick process. Unfortunately when cleaning caravans they tend to do more harm than good. Pressure washers will certainly blast away a lot of dirt for you with little effort. Unfortunately they can also knock off small sensitive parts of your caravan too. The strength of pressure washers makes them a dangerous tool around your caravan which tend to have delicate window seals. Damaged window seals occur very frequently as they are very sensitive and the power of the pressure washer will easily rupture these seals. Pressure washers may also damage decals and scratch paint by blasting dirt against and across your paint. There are some people who successfully use pressure washers to clean their caravan. They tend to only use pressure washers on certain parts such as wheels and also at a great distance to reduce the chance of damage occurring. Despite this it is often safer to simply clean your caravan manually

### 2) Clean even where it's not visible

Caravans can be very large and cleaning as a result can take a very long time. Taking shortcuts and cleaning only the visible parts of your caravan is a tempting way to save some time and energy. I will not say you shouldn't do this. If your only objective is to improve your caravan's appearance then this can be an appropriate way to shorten how much you need to clean. However I will suggest you take the extra effort to clean parts which aren't visible. Cleaning your caravan is a major part of taking care of it and by cleaning it regularly it will last longer and be in better condition when its' time to sell the caravan. Areas which people often skip include the roof, wheels and underside of the caravan. Even if you are only concerned about the appearances of your caravan you should still consider giving these parts a light clean.

### 3) Check whether your roof can support your weight

Cleaning the roof can be a tricky task. Some caravans have been designed to support the weight of a person. Check with the manufacturer to ensure that this is the case. If you are able to stand on the roof then cleaning it is a very simple task. If however you are not able to do this then the safest method is to

use a step ladder and clean a section before repositioning the ladder. Always put safety first and make sure to take your time to avoid falling off.

### 4) Work from the top down

This is a simple tip which can save you a lot of time. When it comes to cleaning a caravan you should begin from the top and work downwards. Many people immediately begin to work on the main body of the caravan as it is the largest and most accessible part of the vehicle. Unfortunately when it comes to cleaning the top portion and roof any dirt that you clean will run down the caravan and end up ruining all the work you took to clean the body. Save time by starting from the top then working downwards.

### 5) Water-streaks on windows

When cleaning during hot days especially under the sun the water evaporates too quickly and will tend to leave water marks. Drying water quickly leaves behind minerals which are in the water and this leaves the marks that you see. This means you will have to go back over and clean these parts. The best way to stop this is to simply avoid cleaning under the sun. If that is not possible then you can try to dry off excess water from the window after it has been cleaned. Chamois and microfiber towels are excellent at this. Both are very absorbent and will soak up the water on the window before the warmth dries up and leaves residue. Some people have found that cooling down the window by rinsing it before cleaning with cold water is another effective way of reducing water streaks.

### 6) Use appropriate cleaning products

It can be tempting to save money by using household cleaning products. Some people also take this a step further by making their own cleaning products at home. Some people simply don't understand the importance of [appropriate cleaning products](#) and find it more convenient to use whatever is in the house at the moment. I will not say that this is the wrong thing to do. It may be very possible that there plenty of homemade or non-specific caravan cleaner products which are very effective cleaners. However there is a large number of cleaning products which can be quite damaging to your caravan many of which are used frequently as a caravan cleaner substitute, because of this it is often much safer and more effective to use specifically designed caravan cleaning products. Common products which people mistakenly use on their caravans include dish soap which strips away wax and can even damage paint. Sponges can sometimes cause minor scratches too by dragging dirt across the paint. Caravan cleaning products have been designed to work optimally on caravans and will provide great value for money when it comes to keeping your caravan in good condition.”

## BYBEL VERSIE

Probeer julle bes om nie met  
ander mense te stry of te baklei  
nie. Leef so dat God trots kan  
wees op julle, want as iemand  
nie so leef nie, sal hy sowaar nie  
by die Here uitkom nie.  
Hebreërs 12:14
